IDAHO STATE FIRE COMMISSIONERS' ASSOCIATION

Dear Business Owner,

The Idaho State Fire Commissioners' Association (ISFCA) represents directly and indirectly over one hundred and sixty-eight fire districts protecting 83,570 square miles and is the 14th largest state in the U.S. of property and structures within the State of Idaho.

Fire commissioners throughout Idaho are elected by the people in each fire district which total over 600 elected officials. Fire district commissioners are the one who are financially responsible for the fire district and administer and approve "ALL" policies, purchases, hiring/appointment of key employees (i.e. Fire chiefs) and most importantly that all state statutes/laws are followed within their respective districts. It must be reassuring to the people and businesses of Idaho that we are just a phone call away, and it is the sworn duty of elected fire commissioners to make sure these services which protect life and property are provided by our fire districts to you.

Idaho fire districts are comprised over 8,000 dedicated hard-working firefighters and emergency medical responders. Volunteers account for over 70% of those members. In your times of need these are the ones who put their life on the line to protect you and your family from fire and provide emergency medical care. Fire districts respond to thousands of fires and medical emergencies all over the State of Idaho.

ISFCA conducts our annual state Conference yearly. This year it will be held May 29th – May 31st, 2024, at The Riverside Hotel, in Boise, Idaho. This is in addition to conducting regional trainings and the introducing and supporting of legislation efforts in preserving the ability to continually protect life and property throughout the State.

The Idaho State Fire Commissioners' Association has a cost-effective opportunity for your company to support ISFCA and increase your company's visibility in communities throughout Idaho.
